TASTIERA INOX INDUSTRIALE RETRO PANEL

Cod. 10002564

Features

- 66 keys metal keyboard with trackpad
- Water, dust and vandal resistant
- Etching and inking lettering
- Brushed surface
- Compatible with WINDOWS98/ME/2000/XP/7
- Designed for public, outdoor, industrial and other extreme surroundings
- Can be cleaned with soapy water, disinfectant or other cleaning agents
- CE , RoHS , FCC approved

Weight and Dimension

- Front panel: 392x110mm
- Overall: 416x134mm
- Weight: 1,4Kg

Material

- Front plate: 304# Stainless steel
- Keycaps: 304# Stainless steel
- Back plate: Aluminum alloy

Mechanical

- IP65
- NEMA4, IK7
- Key stroke travel: 2mm
- Key actuation force: 120g/1.18N
- Key durability: more than 1 million click times
- Net weight: 1.4kg
- Operation temperature: -10°C to +50°C, can be extended to -40°C to +80°C
- Storage temperature: -40°C to +80°C
- Relative humidity: 30% to 95%
- Atmospheric pressure: 50kPa to 110kPa

Electrical

- Power input: +5V/DC, 10mA
- EMC emission: EN55022: 2006
- EMC emission: EN55024: 1998 + A1: 2001 + A2: 2003
- Trackpad resolution: 1000dpi
- ESD resistant: more than 8kV by air contact, more than 6kV by direct contact
