

## DASHBOARD VISUALIZATION FROM THE WEB

**EticDISPLAY is dedicated to managers of industrial equipment and processes.**

This software option of RAS or IPL boxes allows the collection and the display of industrial data from a client customized dashboard.

The dashboard can be easily consulted on the Internet from a PC, a tablet or a smartphone.

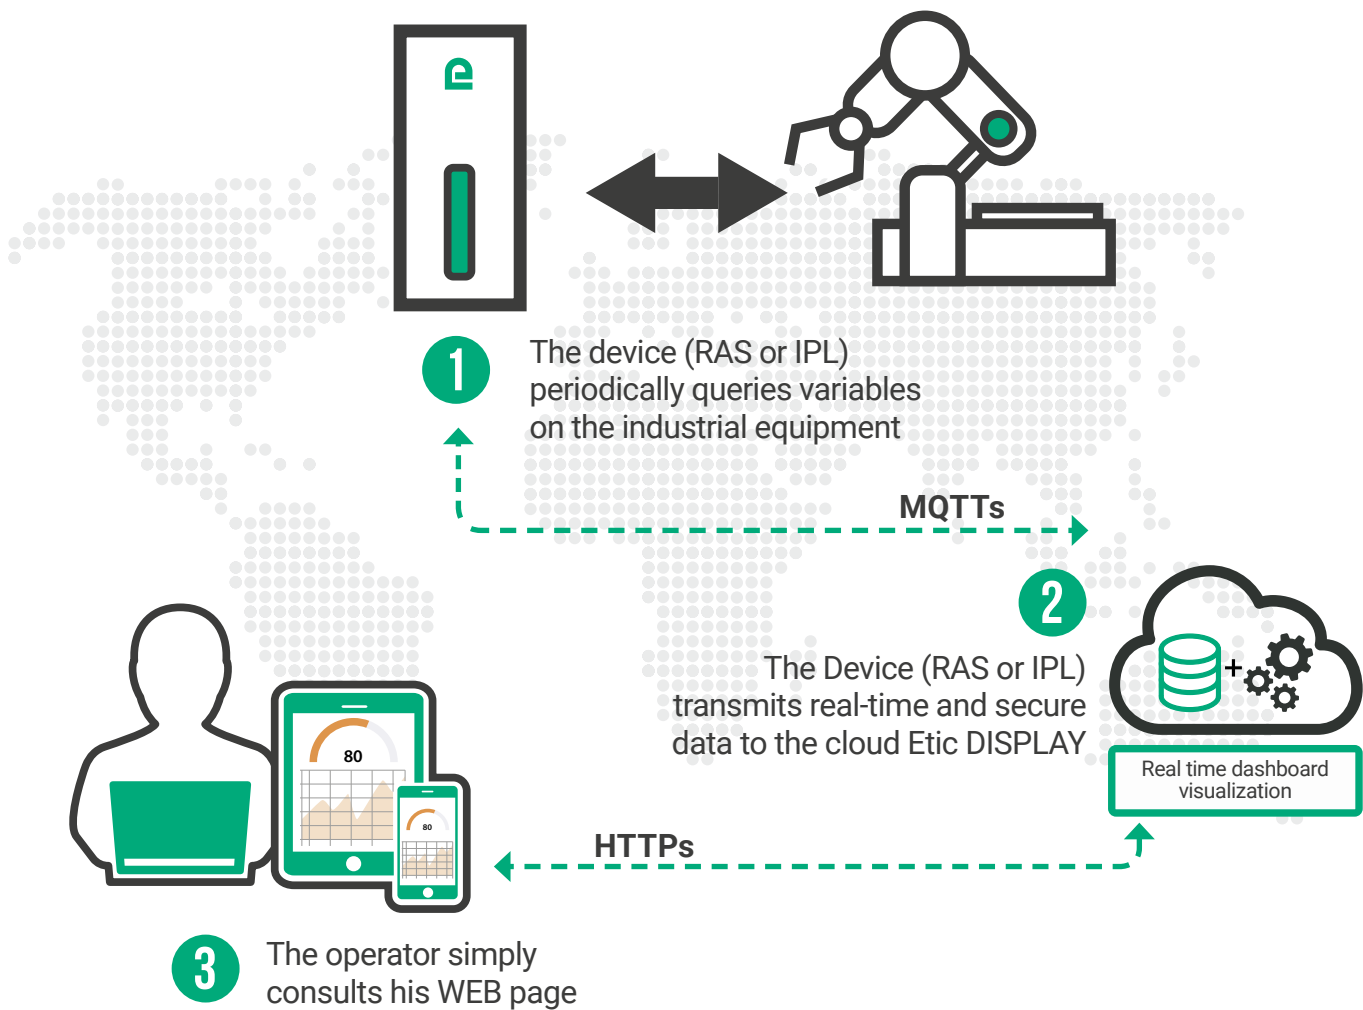

### EticDISPLAY solution

- Geolocalised dashboard
- Simple and secured access to the dashboard (https)
- Simple and fast creation of the dashboard
- Option of RAS & IPL boxes

DOC\_MPR\_EticDISPLAY\_Data sheet\_A (latest update 01/15/2019)

## ETICDISPLAY SOLUTION

## ADVANTAGES

**Solution available on RAS & IPL**

This software feature can be installed on any Machine Access Box (RAS) or Industrial Routers (IPL) commercialized by Etic Telecom.

**Solution compatible with the remote maintenance and monitoring M2Me**

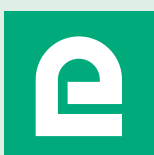

EticDisplay together with the **M2Me** solution offers a comprehensive, secured and simple monitoring solution with dashboard visualization and remote maintenance of the industrial process.

**Creation of customized WEB pages**

On the basis of specifications, Etic Telecom produces a dashboard for visualizing industrial data. Etic telecom also provides the toolbox allowing the partner to create his own WEB pages.

**Consulting the dashboard without specific tools**

Without the installation of additional software on your terminal (PC, smartphone, tablet PC), you can securely access your dashboard using a browser (Chrome, Firefox, Edge, Safari, ...).
