ETHERNET SELECTION GUIDE

BradCommunications™

BradConnectivity™

BradControl™

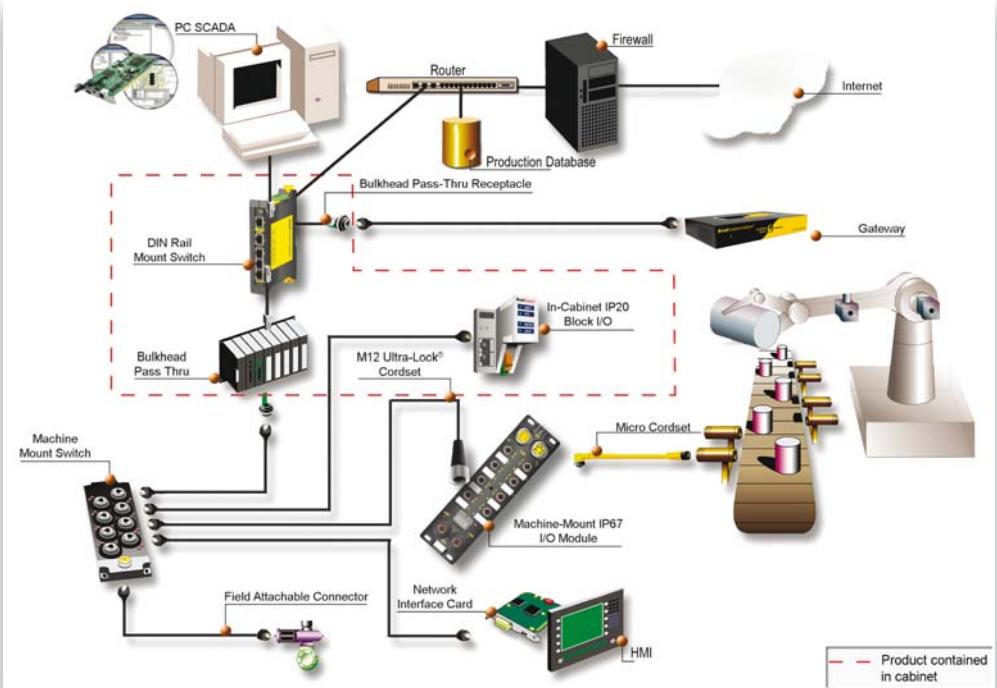

YOUR PARTNER FOR INNOVATION AND PERFORMANCE

Woodhead Industries, a Division of

Molex «Empowers the Industrial Infrastructure» with innovative communication, control and connectivity solutions for a wide range of Industrial Ethernet applications - from the device and sensor level, to the operations and supervisory level, to connectivity with enterprise business and operations systems.

The success of an Industrial Ethernet Network relies on the quality and performance of its underlying infrastructure - all the devices, components and wiring needed to support the network's communications, connectivity and control capabilities. Our Brad® automation and networking

solutions are engineered to facilitate reliable information flow, from machines to PCs and PLCs, and all the way from the plant floor to the enterprise.

Brad® Automation Solutions

Our Brad® product lines - including such globally recognized names as Brad Harrison®, applicom®, SST™, mPm®, and RJ-Lnxx® - are designed and built industrial-tough to ensure the flexibility, interoperability and rock-solid performance of your Industrial Ethernet applications. Our industrial network solutions include:

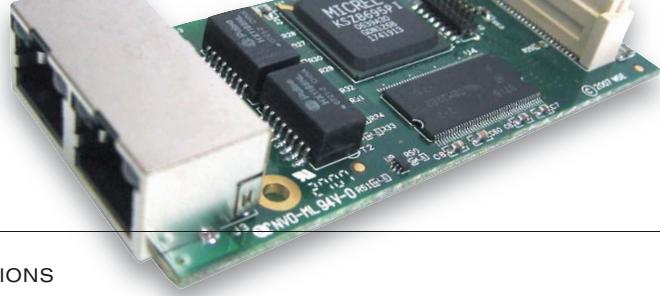

BradCommunications™ - Network interface cards, embedded interfaces, PLC communication modules, Ethernet switches, gateways and simulation & diagnostic tools.

BradConnectivity™ - Connectors, cordsets and distribution boxes for sensor, actuator and bus network applications

BradControl™ - Network I/O modules for on-machine and in-cabinet applications

BradPower™ - Modular wiring systems for machine power distribution and motor control

Woodhead Industries, a Division of Molex, operates from 21 locations in 10 countries spanning North America, Europe and Asia/Pacific. We have the resources to assist you locally with all of your Industrial Ethernet infrastructure requirements.

EMBEDDED INTERFACES

Embedded DC100 OEM Module

- Fast implementation of Ethernet fieldbus
- One Common Interface for all modules
- Compact, horizontal or vertical mounting
- Simple integration with Direct DP-RAM Access
- Possible storage of configuration in flash
- Independent of Operating Systems
- Lower engineering and integration costs

• Size: 80 x 40 mm
 • 2 x RJ45, 10/100 Mbps auto-negotiation, switch feature
 • IP address settings: Static, DHCP, BOOTP server, CIP object
 • RoHS

NEW

Characteristics

Protocols :

EtherNet/IP Scanner

- Implicit and Explicit messaging
- 4096bytes Inputs / 4096bytes Outputs
- IGMP v2, Spanning tree
- CCO Object

EtherNet/IP Adapter

- Implicit and Explicit messaging
- 509 Input bytes / 505 Output bytes

Order Number

DC100EEA-2R-B10 EtherNet/IP Adapter, bulk of 10

DC100EES-2R-B10 EtherNet/IP Scanner, bulk of 10

For availability of PROFINET I/O and Modbus TCP, contact us

NEW

Development Kit for OEM Module

- Allows development of customer specific application with DC100 OEM module
- Driver and APIs for Windows XP and source code for specific OS (Linux, DOS, QNX, Vx-Works, etc.)

Characteristics

Development Board: High Speed USB Adapter

Package includes:

- Electronic documentation
- DLL source
- Demo / Test software with source code

Order Number

SST-EEA-USB-KIT USB Development Kit for EtherNet/IP Adapter

SST-EES-USB-KIT USB Development Kit for EtherNet/IP Scanner

EtherNet/IP Protocol Development Kit

- Stack allows implementation of Scanner and/or Adapter functionality on various hardware platforms
- Stack performs all communications functions, implicit and explicit messaging
- Application objects in the host system may be accessed from the network via explicit messaging
- Multi platform stack
- Portable on any Real Time OS
- Support of Intel and Motorola format
- Data Exchange
 - Shared memory fully configurable
 - Messaging access

NEW

Characteristics

Protocols :

EtherNet/IP Scanner

- Message Server and Client (UCMM & Class 3)
- IO Server and Client (Class 1)
- Explicit messaging
- IO modes: EO, IO, LO
- Application watchdog

EtherNet/IP Adapter

- Message Server (UCMM & Class 3)
- IO Server (Class 1)
- EDS File

Order Number

SST-EIP-ADP EtherNet/IP Adapter Protocol Development Kit

SST-EIP-SCA EtherNet/IP Scanner and Adapter Protocol Development Kit

PROFINET IO Protocol Development Kit

- Stack allows implementation of IO-Controller or IO-Device functionality on various hardware platforms
- Conforms to PROFINET IO specifications v2.1
- Multi platform software stack
- Portable on any Real Time OS supporting multi-thread
- Support of Intel and Motorola formats
- Data Exchange
 - Shared memory fully configurable
 - Messaging access
- Advanced IO-Supervisor Configuration Console

NEW

Characteristics

Protocols :

IO-Controller

- Class-A, SRT, IO data, Alarm
- Max. 1024 IO-Devices
- 1440 Input and 1440 Output bytes per device

IO-Device

- Class-A, SRT, Alarm, GSD file,
- 1440 Input and 1440 Output bytes

Order Number

SST-PFN-DEV PROFINET IO-Device Protocol Development Kit

SST-PFN-CON PROFINET IO-Controller Protocol Development Kit

SST-PFN-CON-CNF OEM Console for PROFINET IO-Controller Protocol Development Kit

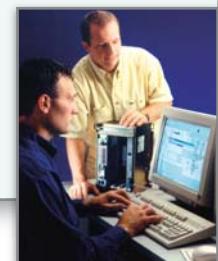

OEM / Machine Builder Support

OEMs and machine builders require solutions which provide quick and easy integration of networking capabilities into their own products and systems. As a leading industrial communications provider, we can assist through our hardware and software tools and other services designed with the OEM/machine builder needs in mind.

When using Brad products, lower development costs and access to an expanded market in a faster timeframe is realized, less maintenance support is required and access to expert industrial network support is gained.

To assist our OEM customers we provide a range of engineering services including:

- Specification
- Hardware development/adaptation
- New protocol implementations
- Porting protocol software
- Application integration
- System test
- Certification
- Manufacturing

ENABLING RELIABLE NETWORKS FOR THE MOST DEMANDING APPLICATIONS

SOFTWARE DRIVERS

Software Drivers for
Smaller SCADA Applications

- Well suited for embedded and light architecture (laptop, Panel PC, MMI)
- Economic solution
- 100% software solution
- All Ethernet protocols can run simultaneously and in Client/Server modes

Characteristics

- Uses PC-based Ethernet card or Serial port
- Software Interfaces included^[1]
- Compatible with various OS^[2]
- Protocols:
 - Ethernet TCP/IP** 10/100 Mbps
 - Allen-Bradley EtherNet/IP PCCC Logix 5000
 - Altus Aynet II
 - Alstom SRTP
 - GE Fanuc SRTP

- Mitsubishi Melsec
- Omron Fins
- Modbus TCP & UDP
- Schneider Uni-TE
- Siemens Industrial Ethernet

Order Number

DRL-ALL-SWL-X Software drivers, 1000 tags, all protocols

DRL-ALL-SWF-X Software drivers, full tags, all protocols

Replace X with: **S** for Software Key
P for Parallel Dongle (short format)
U for USB Dongle (no support of NT4)

BradCommunications™ network interface cards and software driver packages include advanced software tools to configure and diagnose your industrial networks. The configuration console is an intuitive project management and configuration tool integrating powerful features that allow quick, easy, and labor-saving integration of the industrial communication protocol with your application. Whatever the protocol, your project is always setup the same way. For network diagnostics, the testing and monitoring tools provide invaluable help in troubleshooting the whole control and communications system. They can be used during systems implementation and also during operation since the tools can coexist with your industrial applications.

NETWORK INTERFACE CARDS

Best Choice for
Large SCADA Applications

- NEW** – Windows Vista™ capable
- Combo Offer: Ethernet + PROFIBUS or Serial
- All Ethernet and PROFIBUS protocols can run simultaneously

Characteristics

- PCI Universal 3.3/5V (PCI-X compatible), PCI Express
- RoHS compliant
- 10/100 Mbps auto-negotiation
- Software Interfaces included^[1]
- Compatible with various OS^[2]
- Protocols:
 - Ethernet TCP/IP** 10/100 Mbps
 - Allen-Bradley EtherNet/IP PCCC Logix 5000
 - Altus Aynet II
 - Alstom SRTP

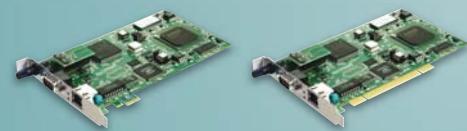

- GE Fanuc SRTP
- Mitsubishi Melsec
- Omron Fins
- Modbus TCP & UDP
- Schneider Uni-TE
- Siemens Industrial Ethernet

PROFIBUS 9.6 Kbps to 1.5 Mbps

- Master DP-V0 Class-1 & 2
- Client S7/MPI
- Master FDL S5
- Master PPI/PPI+
FDL Send/Receive

SERIAL 50 bps to 38.400 kbps

- Allen-Bradley Master DF1
- GE Fanuc Master SNP-X
- Modbus Master

- Modbus Slave (ASCII & RTU)
- Schneider Master/Slave Uni-Telway
- Siemens Master AS511
- Siemens Master TI-Dir

Order Number

APP-ETH-PCU-C PCI bus, 3.3/5V, EthernetTCP/IP

APP-EPB-PCU-C PCI bus, 3.3/5V, EthernetTCP/IP + PROFIBUS

APP-ESR-PCU-C PCI bus, 3.3/5V, EthernetTCP/IP + Serial

APP-ETH-PCX PCI Express 1X, EthernetTCP/IP (Mar 08)

APP-DRV-AB-C Driver License for AB PCCC messaging

PC-Based Control
Applications

- Deterministic data acquisition for PC-Based control application
- Very fast data exchange – 1000 I/O in 1msec!
- Automatic I/O mapping for easy configuration
- Hardware and Software watchdog
- Remote configuration and diagnostics

Characteristics

- PCI Universal 3.3/5V (PCI-X compatible), PCI Express
- RoHS compliant
- 10/100 Mbps auto-negotiation
- Software Interfaces included^[1]
- Compatible with various OS^[2]

EtherNet/IP™
conformance tested

Protocols:

EtherNet/IP

- I/O Master / Scanner and Adapter
- Up to 128 simultaneous CIP based connections (Implicit and Explicit messages)
- EtherNet/IP Devices supported: Generic and Rockwell I/O through EDS files (FlexIO, CompactLogix, etc.)
- IP address settings configurable via the console or DHCP/BOOTP server
- Client DNS Supported
- EtherNet/IP conformance tested

Modbus TCP & UDP

- Master/Scanner
- Up to 127 simultaneous device

PROFINET I/O

- I/O-Controller and I/O-Device (contact us)

Order Number

DRL-EIO-PCU PCI bus, 3.3/5V

DRL-EIO-PCX PCI Express 1X (Mar 08)

[1] - Software interfaces include: OPC Server, ActiveX control, Wonderware DAServer, Wonderware I/O server, development libraries (DLL, NI LabVIEW / Labwindows, etc.)

[2] - Support Windows 32 bits (XP, 2000, 2003 Server), XPe, NTe, Ardence RTX, VxWorks, QNX, Linux, DOS

ENABLING RELIABLE NETWORKS FOR THE MOST DEMANDING APPLICATIONS

PLC COMMUNICATION MODULE

Communication Module for Allen-Bradley ControlLogix

- Connects your Allen-Bradley ControlLogix to an Ethernet or Serial network
- No Ladder Logic to write for configuration and data transfer between module and CLX processor
- RLL support: remote configuration and monitoring via RSLinx
- Data exchange: 500 Inputs bytes/496 Output bytes + 32.000 Words Registers
- USB port for user configuration and firmware upgrade
- Up to 8 modules in one CLX rack
- Support Local and Remote chassis

NEW

Characteristics

- 1 Ethernet port, 10/100 Mbps auto-negotiation
- 2 Serial ports, 110 bps to 115.2 kbps, RS232/RS485
- RoHS
- Protocols:
 - Modbus Master (RTU or ASCII)
 - Modbus Slave (RTU or ASCII)
 - Modbus TCP & UDP Client and Server

Order Number

SST-ESR2-CLX-RLL Ethernet module for Rockwell ControlLogix

I/O SIMULATION

I/O Simulation Software

- Find & fix software bugs earlier before you go online
- Minimize process downtime and startups costs
- Perform control systems testing and operator training
- quickly create a dynamic model to duplicate behaviour of your process
- Simulate multiple controllers at the same time and with a single package

Characteristics

- Modern, customizable, visual development/debugging environment
- Ladder diagram editor for developing simulation logic

Order Number

SST-PICS-PRO-1 Full PICS system, Parallel Dongle
SST-PICS-PRO-1U Full PICS system, USB Dongle
SST-PICS-OPC PICS Pro OPC server
SST-PICS-DDE PICS Pro Wonderware I/O servers

GATEWAYS

Multi Protocol Intelligent Industrial Gateway

- Enables high speed data exchange between industrial devices (PLC, I/O blocks, etc.) through Profibus, Ethernet TCP/IP and Serial networks
- More than 20 000 protocol combinations possible!
- no programming knowledge required, only configuring (tools included)
- Fast data exchange through integrated database (32Kbits/32Kwords)
- Read/write cyclic functions
- Supports unsolicited data exchange from client device

Characteristics

- Protocols:
Ethernet TCP/IP 10/100 Mbps
 - Allen-Bradley EtherNet/IP
 - Altus Alnet II
 - Alstom SRTP
 - GE Fanuc SRTP
 - Mitsubishi Melsec
 - Omron FINS
 - Open Modbus TCP & UDP
 - Schneider Uni-TE
 - Siemens Industrial Ethernet
PROFIBUS 9.6 Kbps to 12 Mbps
 - DP-V0 Master
 - DP-V0 Slave

- S7/MPI Client
- FDL S5 Client

SERIAL

- up to 115.2 Kbps
- DF1 Master
- SNP-X Master
- Modbus Master
- Modbus Slave (ASCII & RTU)
- Uni-Telway Slave
- AS511 Master
- TI-Dir Master

Order Number

APP-ESR-GTW Ethernet to Ethernet/Serial Gateway
APP-ESP-GTW Ethernet to Profibus/Ethernet/Serial Gateway

Multi Protocol PROFINET IO Proxy

- Provides real-time connectivity between a PROFINET IO controller and Ethernet/PROFIBUS/Serial devices
- Easy to use: no programming, just configuring

Characteristics

- 1 Ethernet port, 10/100 Mbps auto-negotiation
- 1 Serial port, 110 bps to 115.2 kbps, RS232/RS485
- Protocols: refer to gateway APP-ESP-GTW

Order Number

APP-PNT-GTW-P PROFINET I/O Proxy to Ethernet or PROFIBUS or Serial

Simple Ethernet to Profibus Tunnelling Gateway

- Cost effective gateway solution
- Remote data acquisition
- DIN rail, IP20 mounting

Characteristics

- Speed: 10 Mbps
- Protocols:
 - Modbus Master/Slave TCP/IP
 - Profibus Slave
 - Modbus Master/Slave (ASCII & RTU)

Order Number

DRL-PFB-SRE ModbusTCP to Profibus/Serial gateway

Simple Ethernet to DeviceNet Tunnelling Gateway

- Cost effective gateway solution
- Remote data acquisition
- DIN rail, IP20 mounting

Characteristics

- Speed: 10 Mbps
- Protocols:
 - Modbus Master/Slave TCP/IP
 - DeviceNet Slave
 - Modbus Master/Slave (ASCII & RTU)

Order Number

DRL-DVN-SRE ModbusTCP to DeviceNet/Serial gateway

ENABLING RELIABLE NETWORKS FOR THE MOST DEMANDING APPLICATIONS

IN-CABINET SWITCHES

*Unmanaged Switch
In Cabinet DIN Rail Mount*

- Plug & Play - No programming required
- Supports all standard 802.3 protocols
- Small footprint in IP30 industrial package
- Redundant, dual-DC power inputs
- Serial port for configuration

- ▼ **Characteristics**
- 10/100 Mbps auto-negotiation
 - Class 1 Div 2*
 - 5, 8 and 9 ports
 - Support both copper and fiber wiring
 - DIN Rail or panel mount

[!] Replace X with: M S for for **Multi-mode 100 Base Single-mode 100 Base**

	Order Number
DRL-241-XXX [!]	5 ports, 4 RJ45 + 1 fiber
DRL-250	5 ports, 5 RJ45
DRL-280	8 ports, 8 RJ45
DRL-281-XXX [!]	9 ports, 8 RJ45 + 1 fiber
DRL-290	9 ports, 9 RJ45

DRL-002 DB9 to RJ45 configuration cordset

*Managed Switch
In Cabinet DIN Rail Mount*

- Supports all standard 802.3 protocols
- Small footprint in IP30 industrial package
- Redundant, dual-DC power inputs
- Serial port for configuration

- ▼ **Characteristics**
- 10/100 Mbps auto-negotiation
 - Class 1 Div 2*
 - 5, 8, 16 and 18 ports
 - Support both copper and fiber wiring
 - DIN Rail or panel mount
 - Advanced features
 - VLAN
 - IGMP snooping
 - RSTP for fault-tolerant loops
 - QoS
 - Web-browser interface

Replace XX with: SC ST for for **SC Connector ST Connector**

- ▼ **Characteristics**
- Network Diagnostics
 - RMON & port mirroring
 - SNMP agent, V1, V2 & V3
 - SNMP management suite software

	Order Number
DRL-332-XXX [!]	5 ports, 3 RJ45 + 2 fiber
DRL-350	5 ports, 5 RJ45
DRL-362-XXX [!]	8 ports, 6 RJ45 + 2 fiber
DRL-380	8 ports, 8 RJ45
DRL-3F0	16 ports, 16 RJ45
DRL-3H0	18 ports, 16 RJ45 + 2 RJ45 10/100/1000
DRL-3H1-xLC	18 ports, 16 RJ45 + 1 fiber 100/1000 LC
DRL-3H2-xLC	18 ports, 16 RJ45 + 2 fiber 100/1000 LC

DRL-002 DB9 to RJ45 configuration cordset

* BradCommunications™ Industrial Ethernet switches having Class 1 Div 2 certification make them UL/cUL 1604 approved for use in hazardous environments where volatile flammable liquids, gases or vapors could exist in the case of an accident or some unusual operating condition.

Class 1 Div 2 certification enables the use of BradCommunications Industrial Ethernet switches in industries with strict safety regulations including: oil & gas, petrochemical, pipeline, refining, mining, chemical, pharmaceutical and food industries.

MACHINE MOUNT SWITCHES

*Lighty Managed Switch,
8 Ports, M12*

- IP67 protection for harsh environments
- Supports all standard 802.3 protocols
- Redundant, dual-DC power inputs
- USB port for configuration

- ▼ **Characteristics**
- 10/100 Mbps auto-negotiation
 - 8 ports, M12 D-Code Ultra-Lock™ *
 - Class 1 Div 2*
 - 60 mm wide package size
 - Diagnostic LEDs (speed/activity)
 - Advanced features
 - RSTP
 - SNMP
 - QoS
 - IGMP Snooping
 - MAC based security

DRL-880 Lighty managed Switch, 8 ports, M12 Ultra-Lock™

DRL-003 USB configuration cordset

*Managed Switch,
8 Ports, M12*

- IP67 protection for harsh environments
- Supports all standard 802.3 protocols
- Redundant, dual-DC power inputs
- Serial port for configuration

- ▼ **Characteristics**
- 10/100 Mbps auto-negotiation
 - 8 ports, M12 D-Code Ultra-Lock™ *
 - Class 1 Div 2*
 - Diagnostic LEDs (speed/activity)
 - Advanced features
 - Web-browser
 - SNMP V1/V2/V3
 - RSTP
 - QoS
 - VLAN
 - RMON & port mirroring
 - IGMP Snooping

DRL-980 Managed Switch, 8 ports, M12 Ultra-Lock™

*Unmanaged Switch,
8 Ports, RJ45*

- IP67 protection for harsh environments
- Secure robust connections
- Web-browser interface

- ▼ **Characteristics**
- 10/100 Mbps auto-negotiation
 - 8 ports, RJ45
 - 60 mm wide package size
 - Diagnostic LEDs (speed/activity)
 - Auto-programming to simplify set up

ENHSAURR8 Machine Mount Switch, 8 ports, RJ45

NETWORK I/O FOR ON-MACHINE AND IN-CABINET APPLICATIONS

IN-CABINET I/O MODULES

Fieldbus Ethernet Coupler

- Modbus TCP/UDP, PROFINET IO, EtherNet/IP
- Built-in 2-port Ethernet switch
- Web server for easy configuration and monitoring
- Carrier Rail DIN 35

Characteristics

- 10/100 Mbps auto-negotiation, 2xRJ45
- Scrolling 4 character status display
- Pushbutton menu selection
- IP Addressing: BOOTP, DHCP or Static
- Front status LEDs for easy diagnostics

Order Number

- BCB-EMB-001** ModbusTCP & UDP Server
BCB-EEA-001 EtherNet/IP Adapter (Dec 07)
BCB-EPD-001 PROFINET IO-Device (Feb 08)

Digital Modules

- Input and output modules
- Easy replacement of module without unwiring
- CAGE CLAMP® Connection

Characteristics

- Carrier Rail DIN 35
- Status through Signal LED
- Size: 98 x 80 x 93 mm
- 24 VDC

Order Number

- BCB-FDI-081** 8 input (5ms)
BCB-FDI-161 16 input (5ms)
BCB-FDI-162 16 input (w/ counter)
BCB-TDI-011 Terminal module

- BCB-FDO-081** 8 output (1 A)
BCB-FDO-083 8 output (2 A w/ scp[1])
BCB-FDO-161 16 output (1 A)
BCB-FDO-163 16 output (2 A w/ scp[1])
BCB-TDO-012 Terminal module

- BCB-FDM-161** 8 input (5ms) & 8 output (1A)
BCB-FDM-163 8 input (5ms) & 8 output (2A, scp[1])
BCB-FDM-164 8 input (0.5ms) & 8 output (2A, scp[1])
BCB-TDM-013 Terminal module

- BCB-FDM-165** 16 input (5ms) - 16 output (2A, scp[1])
BCB-TDM-016 Terminal module

- BCB-FRO-081** 8 relay output (220V/2A)
BCB-TRO-051 Terminal module

Analog Modules

- Input modules
- Output modules
- Easy replacement of module without unwiring
- CAGE CLAMP® Connection

Characteristics

- Carrier Rail DIN 35
- Size: 98 x 80 x 93 mm
- 12 bit resolution
- 24 VDC

Order Number

- BCB-FAI-082** 8 input (0 - 10 V DC)
BCB-TAI-023 Terminal module
BCB-FAI-084 8 input (0 - 20 mA)
BCB-TAI-124 Terminal module
BCB-FAO-041 4 output +/- 10V
BCB-FAO-042 4 output 0-20mA
BCB-TAO-022 Terminal module

* All BradControl™ IP67 modules with Micro-Change® (M12) ports accept both threaded cordsets and the new BradConnectivity™ Ultra-Lock™ Connection System, the fastest, easiest, and most secure connection ever. Ultra-Lock™ technology is designed for higher performance and reliability to eliminate downtime, increase productivity, and lower costs.

woodhead.com/ultralock

ON-MACHINE I/O MODULES

**Fieldbus Ethernet Module,
Threaded and Ultra-Lock™
with 8 Ports, M12 Connection**

- Reliable world-class product for harsh environments
- Built-in 2-port Ethernet switch
- Web server for easy configuration and monitoring
- Visible diagnostics through status LEDs for network, module, external power, inputs & outputs

Characteristics

- 10/100 Mbps, 2xM12 D-Code Ultra-Lock™ technology*
- Scrolling 4 character status display
- Pushbutton menu selection
- IP Addressing: BOOTP, DHCP or Static

- 60 mm wide package size
- 8 ports, M12 Ultra-Lock™ technology*
- Modbus TCP & UDP, PROFINET IO, EtherNet/IP

Order Number

- TCDEM-8DOx-D1U[2]** Modbus TCP 16 inputs
TCDEM-8C2x-D1U[2] Modbus TCP 14 inputs, 2 outputs
TCDEM-8B4x-D1U[2] Modbus TCP 12 inputs, 4 outputs
TCDEM-888x-D1U[2] Modbus TCP 8 inputs, 8 outputs
TCDEM-8YYX-D1U Modbus TCP 16 I/O user configurable
TCDEI-8XXX-D1U EtherNet/IP Adapter, Same IO configuration - see above (Dec 07)
TCDEP-8XXX-D1U PROFINET IO-Device, Same IO configuration - see above (Mar 08)

**RJ45 Threaded
With 8 Ports,
M12 Connection**

- Supports EtherNet/IP application layer
- Built-in Web server for remote monitoring and configuration

Characteristics

- 8 input, 8 output points per module
- 10/100 Mbps auto-negotiation, RJ45
- Static or dynamic IP address configuration

Order Number

- TEN-888-R18-05** EtherNet/IP Slave

CONNECTORS, CORDSETS AND DISTRIBUTION BOXES FOR SENSOR, ACTUATOR AND BUS NETWORK APPLICATIONS

NETWORK CONNECTIVITY

**Micro-Change®
M12 Threaded
Cordsets**

- Plug & play connection between Ethernet nodes
- Single and double-ended male cordsets
- Straight and 90°
- Shielded and unshielded
- Decoupled option
- Standard and application-specific lengths

Characteristics

- Proven reliable and durable form factor for harsh manufacturing and processing environments
- Industry-standard D-coded keyway
- Cat5e Compliant
- Rugged IP67 - rated connectors for continual connection integrity in industrial environments

**Ultra-Lock™ M12
Cordsets**

- Maximum-performance push-to-lock technology enabling fast, highly reliable and repeatable IP67/68/69K connections
- Single and double-ended male cordsets
- Straight and 90°
- Shielded and unshielded
- Standard and application-specific lengths

Characteristics

- Industry-standard D-coded keyway
- Cat5e Compliant
- IP67/68/69K

**Ultra-Lock™ M12
Receptacles**

- Connects external overmolded cordsets with an enclosure
- PCB-Mount, wire leads and cable-to-RJ45
- Female front panel-mount (PG9 or M16) and back panel-mount (M16)

Characteristics

- Accepts both M12 threaded and Ultra-Lock™ cordsets
- Proven reliable and durable form factor for harsh manufacturing and processing environments
- Industry-standard D-coded keyway
- IP67/68/69K

**Micro-Change®
M12 Field Attachable
Connectors / Accessories**

- Field termination for specific length or repair using IDC connection system
- Male and female
- M12-to-RJ45 bulkhead adapters

Characteristics

- Provides maximum flexibility by allowing the machine / system builder to determine cable length on site
- Easy to install IDC connectors
- IP67 protection when mated or capped

**RJ45 Threaded
Cordsets**

- Overmolded threaded connectors for secure, robust IP67 connection between Ethernet nodes
- First IP67 industrial Ethernet connector
- Standard and application-specific lengths

Characteristics

- Proven reliability in harsh commercial environments, protecting against vibration, contaminants, electromagnetic interference (EMI), wide temperature ranges and chemicals
- RJ45 plug with ruggedized threaded outer shell
- Cat5e Compliant
- IP67 protection when mated or capped

**RJ45 Threaded
Receptacles**

- Connects RJ45 threaded cordsets with an enclosure
- Punch-down (IDC), bulkhead feed-thru, direct PCB mount, and PCB-to-cable versions

Characteristics

- Proven reliability in harsh commercial environments, protecting against vibration, contaminants, electromagnetic interference (EMI), wide temperature ranges and chemicals
- RJ45 jack with ruggedized outer shell
- Cat5e Compliant
- Compatible with commercial RJ45 connectors
- IP67 protection when mated or capped

**RJ45 Threaded
Field Attachable
Connectors**

- Field termination for specific length or repair using standard crimp tools

Characteristics

- Provides maximum flexibility by allowing the machine / system builder to determine cable length on site
- Easy to install RJ45
- IP67 protection when mated or capped

RJ45 Accessories

- Cover caps with optional lanyards to protect receptacle face when not in use
- Back-end receptacle covers provide additional structural support

Characteristics

- Protects against moisture, dirt and debris

CONNECTORS, CORDSETS AND DISTRIBUTION BOXES FOR SENSOR, ACTUATOR AND BUS NETWORK APPLICATIONS

POWER CONNECTIVITY

Auxiliary Power 5-Pole Media [1]

- Supplies auxiliary power to a variety of devices, including active I/O modules or machine stop tees

- Complete system of cordsets (single and double-ended), tees and receptacles
- Standard and application-specific lengths

- Characteristics**
- Rugged IP68 rated connectors bring power to active I/O modules reliably
 - Variety of connector configuration and cable length options available

POWER CORDSETS - Order Number
